ECS Configuration Change Request

CCR No. 96-0738	**Logged Date** 7/08/96	**Rev.** -	**CCR**

Priority Routine ☐ Urgent ☒ Emergency ☐	**Affected Release** B	**Change Class** I I

Title (description)
Upgrade of StP/OMT from Core 1.3 (current version) to Core 2.2

Documents Affected na	**Source Nos** (RID, NCR, Action Item, GSFC CCR, etc.) **or Tech Reference** na

RTM Change ☐   **Start New Baseline** ☐

Problem
The current version of StP has some functions that are limited in capability (reverse engineering, etc.). Additionally, there are some bugs in the current version for which no patch exists. The interface to the tool is also cumbersome to use.

Proposed Solution
Install the upgraded version of StP; Core 2.2. This version corrects many of the problems of Core 1.3, has a more intuitive interface, enhances some of the capabilities, and has greater performance. Core 2.2 is also integrated with Take5 Software's Sniff+ product which is currently being evaluated for purchase.

Also necessary will be the "conversion" of the current version's databases (repositories) to work with Core 2.2.

Impact Analysis:

Organizations Affected: BOO ☐   Contracts ☐   ESO ☐   FOS ☐   M&O ☐

    QA ☐   Rel. A ☐   Rel. B ☒   Rel. IR1 ☐   MRS ☐   SMO ☐   Subconts ☐
